

Given the current environmental circumstances, IUL remains committed to doing what is best for the wellbeing of our associated and their families. Equally so, we remain vigilant with regards to our servicing responsibilities for our valued clients.

We have now finalized our business capabilities to execute a hybrid remote work environment, effective Monday, March 23rd, for those associates choosing to do so. IUL remains OPEN FOR BUSINESS and our main phone line will remain open and active.

We offer our continual thoughts and prayers until this threat is defeated.

God Bless,

Jack T. Landry

President/CEO
