

Acknowledging that we are now well into our eight month of the Pandemic and the economic uncertainties created by COVID-19 . While our hopes for a near term end to the economic realities of COVID remain high we exercise continual vigilance with regard to the safety and well being of all IUL associates and their loved ones.

With this priority in mind we are equally focused on maintaining our servicing commitments for our Valued Clients. Through our ongoing business commitment to embrace the best that technology offers, IUL has proudly provided for uninterrupted Client services. Execution of these technological capabilities is fully realized only through the stellar commitments and contributions of our IUL TEAM OF PROFESSIONALS.

I offer my continual Thoughts & Prayers to All.

God Bless,

Jack T. Landry

President/CEO
